

TRAFFIC INFORMATION BULLETIN

Location:

**George Square South
Ward 10 City Centre**

Description:

Closure of George Square South – Phase 5B – Extension

In order to reconstruct the southern side of George Square South with granite setts, it needs to be closed in its entirety. This TTRO extends the current closure on the south side of George Square (incl the Queen St junction) until 29th November 2026 to allow the setts to fully cure, enabling traffic to use the southern carriageway.

The bus gate on Ingram Street will continue to be suspended during this closure.

Access to St Vincent Place, will available via Nelson Mandela Place, West George Street and Anchor Lane. The bus gate camera at Nelson Mandela Place will remain in operation however shall also permit Goods Vehicles for the duration of this closure.

Anchor Lane shall be maintained in a southbound direction.

The following one-way streets will become no through roads & operate as two-way:

- Cochrane Street
- Hanover Street
- South Frederick Street
- Queen Street (north of Ingram Street)

Diversions:

(Northbound traffic on Queen St) Ingram St, High St, George St, Montrose St, Cathedral St, North Hanover St, Killermont St, West Nile Street.

(Westbound traffic on Ingram St) Glassford St, Wilson St, Brunswick St, then follow the NB traffic diversion route.

All diversion signs display a black circle.
